Applicable DOE Directives and Documents

The following DOE documents contain requirements relevant to the scope of work under this contract. The complete set of requirements for this project will be dictated by the Contractor's specific approach. It is incumbent upon the contractor to identify all necessary requirements and assure their implementation. In some cases, the documents specified below contain requirements that may duplicate those requirements levied by other regulations or regulatory authorities during some project phases. It is the intent of DOE, in conjunction with the Contractor, to eliminate duplicative and unnecessary requirements.
